ACTIVE QF MATCHES — PRIZEPICKS LINES vs MODEL PROJECTION

#	Player	Prop	PP Line	Type	Proj	Edge	Conf	Analysis
1	Mensik	Double Faults	OVER 5.5	goblin	8.5	+3.0	A+	REAL: 9 DFs in R16 5-setter confirmed. Goblin line means PrizePicks expects OVER easily — we agree strongly. Fatigue + 0.040 career DF rate = 7-9 DFs today.
2	Andreeva	Fantasy Score	OVER 17.0	standard	22.0	+5.0	A+	REAL: Dominant 2-0 yesterday, fresh legs. Clay H2H 1-0 (Linz 2026). 77.8% clay win rate vs Cirstea 59.3%. +5 pt model gap — best FS edge on board.
3	Fonseca	Total Games	OVER 38.0	standard	41.2	+3.2	A+	H2H: Both prior meetings (Basel + Next Gen) went full distance. Mensik 9 DFs = serve breaks. Fonseca clean but dangerous. Model: 40-43 games on RG clay.
4	Zverev	Fantasy Score	OVER 23.5	standard	26.4	+2.9	A	FIRST MEETING. Zverev fresh 3-set R16 win. Clay 76.1% + ace rate 0.085 highest in field. Projects 24-27 FS. Market 23.5 underestimates Zverev's dominance on clay.
5	Mensik	Aces	OVER 12.5	standard	13.0	+0.5	A	REAL: 13 aces in R16. 0.113 career ace rate — highest in field. Even fatigued he serves big. Line is set correctly at 12.5 but he hits exactly here or OVER.
6	Zverev	Total Games	OVER 36.5	standard	39.1	+2.6	A	FIRST MEETING — no H2H precedent for quick finish. Both clay 75-76%. Jodar saved 10/14 BP in R16 — won't go quietly. Model: 38-41 game battle.
7	Kostyuk	Fantasy Score	OVER 15.5	standard	17.2	+1.7	A	MARKET FLIP — Kostyuk opened underdog, now -125 favorite. H2H leads recent 2-1. BP created 0.890 — highest WTA field. Model 17+ in close derby.
8	Zverev	Aces	OVER 8.5	standard	9.4	+0.9	B+	0.085 ace rate on clay — highest remaining ATP field. In a potential 4-setter vs first-time opponent, serves big. Projects 9-10 aces.
9	Fonseca	Fantasy Score	OVER 20.0	standard	22.0	+2.0	B+	REAL: 0 DFs in R16, clean 3-set win. H2H 2-0. No fatigue factor. Model 22 FS in dominant QF performance. Line is soft at 20.0.
10	Andreeva	Total Games	OVER 21.5	standard	23.2	+1.7	B+	Andreeva dominant but Cirstea (59.3% clay) can take games. 0.593 clay win rate = she'll contribute games. Model: 22-24 total in straight-set Andreeva win.
11	Zverev	Total Games Won	OVER 20.5	standard	22.1	+1.6	B+	If total is 39.1 games and Zverev wins (88% model), he takes ~22-23 games. OVER 20.5 with cushion.
12	Kostyuk	Break Pts Won	OVER 5.0	standard	5.7	+0.7	B+	0.890 BP creation rate — highest WTA. Derby pressure favors her aggressive return game. Svitolina slightly fatigued from 3-setter. Kostyuk earns 5-6 BPW.
13	Mensik	Double Faults	OVER 6.5	demon	8.5	+2.0	B+	Even the demon (higher) line gets cleared. 9 DFs confirmed real data. Career rate 0.040 stays elevated under 5-set fatigue. 7-9 DFs projected regardless.
14	Cirstea	Total Games Won	UNDER 11.5	goblin	7.1	-4.4	B+	Goblin = lower line, but Cirstea still projected at just 7 games. Andreeva 77.8% clay win rate + clay H2H edge = dominant win. Even "easy" goblin gets beaten here.
15	Jodar	Total Games Won	UNDER 17.5	standard	16.8	-0.7	B	Zverev 88% model win, first ever meeting. In 39-game match Zverev wins ~22, Jodar gets ~17 — right at line. Slight UNDER edge given Zverev's clay dominance.

SF PREVIEW — LINES ALREADY POSTED (PrizePicks)

#	Player	Prop	PP Line	Type	Proj	Edge	Conf	Analysis
16	FAA	Aces	OVER 11.5	standard	13.8	+2.3	A+	REAL: 9 aces in 2-SET QF win. Cobolli won 4-setter. SF = 4-5 sets projected. FAA ace rate 0.070 over longer match = 12-16 aces. Standard line at 11.5 is very hittable.
17	FAA	Double Faults	UNDER 4.5	standard	2.1	-2.4	A	REAL: Only 2 DFs in QF. Career DF rate 0.028 — very reliable serve. Even in a 5-set SF, 4.5 DFs is extremely high for FAA. Strong UNDER.
18	Sabalenka	Total Games Won	OVER 15.5	demon	17.8	+2.3	A	Demon line (high threshold) still cleared. Sabalenka 80.4% clay + H2H 3-2. Even if she wins 6-3 6-3 = 18 TGW. Vs Shnaider who just upset Keys, Sabalenka won't be complacent.
19	Berrettini	Aces	UNDER 10.5	standard	6.8	-3.7	A	REAL: Only 2 aces in QF but 92% 1stIn dominance — he doesn't need aces. Career 0.082 rate projects 6-8 in typical match. 10.5 standard line is severely overpriced. Strong UNDER.
20	Cobolli	Aces	OVER 7.5	standard	8.2	+0.7	B+	REAL: 8 aces in 4-set QF. Career 0.053 rate. SF vs FAA will also go long (FAA 2-set QF). In similar 4-set match, Cobolli hits exactly this line or OVER.

SUGGESTED SLIPS

Slip	Name	Legs	Payout	Notes
Slip A	QF POWER PLAY (3-LEG)	Mensik DFs OVER 5.5 goblin (A+), Andreeva FS OVER 17.0 (A+), Fonseca Total Games OVER 38.0 (A+)	-8x	Three A+ picks all backed by real R16 match data. Mensik 9 DFs confirmed. Andreeva dominant. Fonseca vs tired Mensik = long match.
Slip B	SF PREVIEW (3-LEG)	FAA Aces OVER 11.5 (A+), FAA DFs UNDER 4.5 (A), Berrettini Aces UNDER 10.5 (A)	-8x	All three grounded in real QF stats. FAA 9 aces in 2-set win — projects higher in SF. Berrettini relied on 92% 1stIn not aces. Both UNDER values are dramatic.
Slip C	ML PARLAY (4-LEG)	Andreeva WIN -189 (A+), Zverev WIN -303 (A), Fonseca WIN -227 (A), Kostyuk WIN -125 (B+)	~+125	Four clearest ML edges. Andreeva model +20% over market. Zverev first meeting clay model 88%. Fonseca 0 DFs vs Mensik 9 DFs fatigue. Kostyuk sharp line flip.
Slip D	ZVEREV STACK (3-LEG)	Zverev FS OVER 23.5 (A), Zverev Total Games OVER 36.5 (A), Zverev Aces OVER 8.5 (B+)	-8x	First meeting with Jodar = no mental edge, pure clay model. Zverev 76.1% clay + 0.085 ace rate. All three props point same direction — Zverev dominant long win.
